

Transformers

METH s.r.l. designs and manufactures electric transformers since 1980 focusing on the quality of its product performance, thanks to 30 years of experience in this business. Since 1998 multiple national and international certifications are the result of a continuous effort in updating our products to meet worldwide standards and requirements.

Meth is specialized in manufacturing single-phase electric transformers from 3,2VA to 80kVA and three-phase transformers from 100VA to 1600kVA, for applications in different fields from industrial to automation to photovoltaic to marine.

SINGLE-PHASE TRANSFORMERS

- » Low-voltage single-phase isolating and safety transformers ENEC and UL-CSA marked
- » Low-voltage single-phase isolating and safety transformers input/output in 2 sides – class F
- » Low-voltage single-phase isolating and safety transformers input/output in 1 side – class F
- » Low-voltage single-phase isolating and safety transformers – class B
- » Low-voltage single-phase isolating and safety transformers with resettable switch
- » Low-voltage single-phase universal input low-voltage isolating and safety transformers
- » Low-voltage single-phase isolating and safety transformers for screw or DIN bar installation IP20
- » Low-voltage single-phase dry-type transformers from 5 to 80 kVA
- » Low-voltage single-phase transformers for medical locations
- » PCB transformers

THREE-PHASE TRANSFORMERS & AUTO-TRANSFORMERS

- » Low-voltage three-phase general purpose transformers UL-CSA marked up to 25 kVA
- » Low-voltage three-phase isolating and safety transformers up to 40kVA
- » Low-voltage three-phase dry-type power transformers up to 1000kVA
- » Low-voltage three-phase industrial control transformers UL-CSA up to 80kVA
- » Low-voltage three-phase industrial control auto-transformers UL-CSA up to 250kVA
- » Low-voltage three-phase dry-type power transformers with protection degree IP55
- » LOW-LOSSES three-phase SLIM-LINE transformers ECO DESIGN
- » Low-voltage three-phase isolating transformers for “Renewable Energies” class B
- » Three-phase auto-transformers and reactors motors starting

REACTORS

R3F Three-phase filter reactors

R3L Three-phase smoothing reactors
